Hampshire Golf Club

Points4Golf Membership @ The Hampshire

Flexible Golf to suit your lifestyle

In today's fast moving society many golfers can't justify golf club entrance fees and annual membership fees because they simply don't have the chance to play enough golf. If you play less than 50 times a year then our new exclusive P4G membership is for you. This allows you to play in club competitions and to gain a handicap.

Points4Golf Membership is a tried and tested scheme that allows golfers a totally flexible and low cost approach to membership. When you join The Hampshire Golf Club as a P4G member you buy a number of "points" which are held on a membership account. The point's options are available in varying sizes based on a sliding scale ensuring the more points a member purchases the better value they become. Each time a member plays a number of points, depending on when they play, are deducted from the account. Points can also be used for guest play at any time. P4G members can 'top up' with additional points at any time throughout the year as required. All units are perpetually valid, providing that the minimum purchased each calendar year. When you join that first purchase means your points are valid until the end of the following year.

Points4Golf Membership
